## Athletic Affairs.

He used to utter every race. As a promoter and a gambler. And always with marked ease and grace. He distanced every sculler.

Appraise the papers at his burial. And poets as a sequel. Proclaimed in song that the world had never seen his equal.

They raised the casket of his face. They said he was a dandy. And that he'd win in any race. While half asleep and dandy.

They told him in a race he'd stop. When scullers made it hard. And reach into the water and stop. In languid ease his forehead.

And how he'd sit and float. And watch the nearby sculler. Where his den played cricket. Or note the beauty of the scenery.

They called his muscles iron things. In many little girls. And all their gay Glympian songs. Were simply panegyrics.

Now he's been beaten easily. His friends all howl in earnest. And say with one accord that he was not himself internally.

—J. K. MUNKITTRICK, in the Clipper.

Never kick, no never.

Four-oared race this evening.

Blondell, the swimmer, is in Evansville, Ind., giving exhibitions.

The floating bath-house, foot of Broad way, is doing a wonderful business.

Capital idea. Let the Acme, Aquatic and Cincinnati Boat Club get up a double or single scull race. Keep things moving, boys, and don't let the interest already awakened die out.

Wm. Napper is now Secretary of the Acme Boat Club, vice Ed. Wisniewski. By the way, a marriage license was issued yesterday to Wm. H. Napper and Emilie Hess. Wonder if this isn't "our" Napper?

The Schmidt Brothers pay eighty dollars per month wharfage for the space their bath-house occupies at the foot of Broadway. It takes a great many bathers fifteen cents each to make this amount good.

The Halifax Rowing Association replies to the challenge of Epp. Morris, of Pittsburg, for a boat race with Warren Smith, declining to accept the Hutton course at Pittsburg, but offering to make a match to be rowed on any fair water east of New York.

Hanlan has arrived home. He is rather disappointed over the result of the race at Providence, but insists his actions were square. Hanlan's physician says the oarsman is not permanently injured, but prescribed absolute rest for several months. Hanlan will train for the race with Trickett in England.

Peter Mulhern and Louis Lyons, amateur rowers, had a boat race on the river last evening, the course being between the upper and lower bridges and return. Each contestant was aided by his wife, the women pulling an oar by no means to be despised. The Lyons boat came in eight lengths ahead, winning an easy victory, amid the applause of the large crowd assembled to view the novel race. —Albany Times, Thursday.

Mons. Roy Alphonse was in Cincinnati this week, and has gone North. While here he signed articles of agreement with Captain McCoy to give exhibitions of walking on the water at Parker Grove on the Fox of July. On this occasion there will be a picnic and other attractions at the Grove, under the management of Captain McCoy, and the Ellen McCoy will make three trips down and back. Alphonse, as absurd as it may seem, will actually walk upon the surface of the Ohio River.

Was the English sculler Boyd in the Providence race? So little was seen of him after the start, and so little heard of him as the finish, that the question has arisen whether he really took part in the contest or not. So much was expected of him that even the friends of Hanlan were a trifle shy of the Britisher. He was so secretive in his movements before the race that no body could get at him, and it was imagined that he was the "dark horse," and would show time that would knock the record all to pieces. Did he, too, have a side in his side or a break in his skull? —Clipper.

James H. Riley returned home from Providence Saturday. He accounts for his defeat at Seakonk by the fact that Ross is a rough water sculler, and he is not—the last mile and a half having been pulled with their shells full of water. He denies that there was any "crookedness" on the part of Hanlan, and says that the latter found the time being made by Ross was too hot for him, and yielded to his inevitable Waterloo—he being also an accustomed worker in chopping news. Riley will keep in training at Saratoga Lake during the summer, waiting, Midway-like, for "something to turn up." —Albany Argus.

The crack English sculler, Boyd, and his chief backer, Mr. Christopher Barron, of Newcastle, have sailed home. They were not only disappointed, but simply disgusted. In conversation with a reporter Barron said: "We had no show up there in Providence, whatever. There was no place for twelve men to compete. That was downright nonsense. I am only sorry Boyd did not back down before the race. He came here to prove his powers and endurance, and at the very first exhibition, where he hoped for a good chance, was at a disadvantage. It was not a fair race. It was too one-sided. Boyd came out here for a purpose, and meant to make a prolonged visit, but that purpose he has had no opportunity to fulfill, and didn't care to remain." Boyd arrived in excellent health, and on his arrival home will arrange for new matches.

HANLAN AND TRICKETT.—On the afternoon of June 24 the representatives of Ed. Hanlan and Ed. Trickett met at the office of the Sportsman, in London, Eng., to complete arrangements for the great race for the championship of the world, the Sportsman challenge cup and \$1,000 a side. Hanlan was again represented by Colonel Albert D. Shaw, and Trickett by William Wentworth and Charles A. Latt. During the previous day or two all matters of detail had been amicably arranged, and there was no difficulty whatever about the signing of the articles, which had been slightly amended. Colonel Shaw posted the requisite \$500 for Hanlan to cover a similar amount already deposited on behalf of Trickett. The articles then re-

signed, the gentleman who offered for Hanlan being a friend of that man from Toronto. It will be seen from the above articles appended that the match will take place on the Thames on November 19th next.

Articles of agreement entered into this day between Edward Trickett, of Sydney, New South Wales, and Edward Hanlan, of Toronto, Canada, who hereby agree to row a straightaway scullers' race from two boats measuring twenty-five yards apart off the Star and Garter Hotel, at Putney, to a point above the Ship Hotel, at Mordale, corresponding in distance from said Star Hotel with the distance from Putney to the said Star and Garter Hotel. The men to row in best and best boats, the sum of \$200 (two hundred pounds) a side, the championship of England, and the Sportsman Championship Trophy. The two men to be in their boats ready to start one hour and a half before high water. The race to be rowed on Monday, November 15, 1890. The referee shall have power to postpone the match from day to day should he consider that the state of wind and water will not permit the race to be rowed with fairness and safety to both parties. The race to be rowed according to such of the new Thames National Rules as are applicable, entries being allowed to accompany the race on the condition that they keep behind the sternmost man from start to finish. The referee to start the men by giving the word "Go," after duly cautioning the competitors. The stakeboats to be moored out in the river to the full satisfaction of the referee twenty minutes before the authorized time for the commencement of the race. The first deposit of \$50 (fifty pounds) a side has been made good with the editor of the Sportsman; the second deposit of \$50 (fifty pounds) a side to be made good at the Sportsman office on Monday, August 2, 1890; and the third and final deposit of \$100 (one hundred pounds) a side to be made good on Thursday, November 11, 1890, at the Star and Garter Hotel, Putney, between the hours of eight and ten o'clock p. m., with the editor of the Sportsman, who is hereby appointed final stakeholder. John Ireland, of Hastings, is hereby appointed referee; but in case of his inability from any cause whatsoever to fulfill the duties of the office, the stakeholder is empowered to appoint a gentleman to act in that capacity. The competitors in rowing to proceed through the center arch of Hammersmith Suspension Bridge. The referee shall have entire jurisdiction over the race from start to finish, and his decision shall be final and subject to no appeal at law or otherwise. Either party failing to comply with either of these conditions shall forfeit all money down in the hands of the stakeholder. In case any question shall arise which is not definitely provided for in these articles, the same to be settled according to the rules and regulations governing competitions for The Sportsman Challenge Cup.

Base-Ball.

Well, grin and bear it.

Chicago still leads in the League race.

Base-ball clubs always make a big inning.

Troy vs. Cincinnati to-day. Game at 3 p. m.

Billy Gear, it is said, is going to play in the Hop Bitter team.

Sullivan and Dickerson received a warm reception from their many friends in this city.

The Buckeyes will play the Louisville Red Stockings at the Cincinnati Ball Park to-morrow.

Railbourne will be released by the Buffaloes. It is feared one of his arms is permanently injured.

Ah, now we'll get our work in. If we don't get a game from the Troys we might as well quit try-ing.

The nine thousandth reason why he should be elected President—General Garfield is very fond of base-ball.

This afternoon the Bostonians play in Cleveland, the Worcesters in Chicago, the Providence in Buffalo, and the Troys in Cincinnati.

It is consoling to know that the Cincinnati are playing a fine game of ball if they ain't winning as many games as the other clubs.

The "dark horse," Cleveland, stands pretty well, considering the knowing baseball reporters didn't hardly give them a passing glance at the beginning of the season. The Star spoke well of them at the start.

The Troys play here to-day, Monday and Tuesday, and on Thursday, Friday and Saturday of next week the Providence team will make their debut on the Cincinnati grounds. They will be followed by the Bostonians.

THE LEAGUE RACE.—Although the race for the League Championship is yet quite young, it is generally considered that Chicago will be a winner, and come out in the end away ahead of the other seven clubs. Many at first supposed the Windy City team would go to pieces, as they did last year after winning ten or a dozen games, but the club's steady work up to-day and out on the playing field have made them big favorites among the betting fraternity. It is yet nip and tuck between Providence, Cleveland, Boston and Worcester for second place.

This week Cleveland dropped back from second to third place, and Providence by winning two games out of three with the Forest City nine took second place. These two clubs are tie in the number of games won, but Cleveland has lost one game more than the Providence nine. Worcester is pushing both clubs very hard, and may yet pull up to second place, or, who knows, they might take first. Troy, Buffalo and Cincinnati stand in the order named. At the close of last week two Western clubs were in the lead and two the tail end, leaving the East a solid center. As it now stands, one Western club leads and two bring up the rear, while one Eastern club holds second place and the other three are pretty well bunched for fourth place. The following is the relative position of each club:

Pos. Team. Won. Lost.

1. Chicago.....24.....3

2. Providence.....17.....12

3. Cleveland.....17.....12

4. Worcester.....15.....14

5. Boston.....15.....14

6. St. Louis.....13.....15

7. Buffalo.....10.....20

8. Cincinnati.....7.....26

Total.....70.....216

Trotting next week.

Fred Archer, who was coming to this country for his health, has abandoned the idea.

Lord Rosebery's luck is "dead out." He has fifty horses in training, and the most important race he has won this year is the Ashford Stakes, with Cheverton, who is blind of one eye.

July 5th (the day we celebrate) the trotting races will begin at Chester Park

and last five days. The program is fine, one, and some of the fastest horses in the world will be here. Look out for a great sport.

O. J. Dimick, the noted horseman of Rock Island, Ill., has sold all his stock off. He intends going out of the racing business and devoting his time to his estate in Chicago, where he is largely interested.

AND YET THEY WERE NOT. The opening of the new race course at Toney Island last Saturday, there were no book-makers as busy as bees, seven multi-story accommodations wearing themselves out, and an auction-pool stand crowded. Despite these unusual facilities, the dear public "blew their money in" so rapidly and steadily that quite one-third of them could not be accommodated.

Speaking of Hindoo's fine performance at Chicago Monday an exchange says: Both the first-class animals of the first two races came whirling along in advance of their dust-coated rivals in a thoroughly admirable style, making such frantic manifestations of speed, that applause rang out from the stand, shared in even by those who had enjoyed of old. The time made by Hindoo had never before been covered by a two-year-old, weighted, as he was, with 100 pounds. Though the track was undoubtedly fast yesterday, there is little doubt that Hindoo could have been urged under the wire from one-half to three-quarters of a second sooner. He took the race easily, finishing in an unforced gallop. This circumstance lifted Hindoo, a handsome bay colt, into notable favor, and the old trackmen and stable-boys gathered around him with admiration. The friends of the animal smiled broadly, and smote together the palms of their right hands in congratulation. The occupants of the stand, who felt that kind sympathy had given them some sort of proprietor interest in the colt, greeted him with a round of cheers when he came back. This colt has also to his credit a score of 1:16 made with five pounds extra weight. There have been offered for him \$15,000, which was refused, and the present victory will tend to enhance his value.

Miscellaneous.

Is the next Presidential race to be on the go-as-you-please plan, or a fair heel-and-toe walk-over?

Dan. O'Leary lost about \$1,500 on his pedestal march in this city at the Highland House.

The date for the International Rifle Match at Dollywood has been fixed for the 29th instant.

The advantage of the bicycle is that it makes no noise, and a person can be run down by one in a perfectly genteel manner.

O'Leary intends offering the largest purses ever given for a six-day go-as-you-please, open to all pedestrians in the world, to take place in this city this fall. —[New York News.

It would seem that Rowell and Blower Bros. are going to meet the dark pedestrian Hart on American soil. Hart's record of five hundred and sixty-five miles acts as a sort of scarecrow.

After giving the track a few weeks' rest, during which Messrs. Haverly and Engelhardt have been perfecting arrangements for certain events, they now state that they have arranged for the fourth race of their twelve-hour per day series of seventy-two-hour go-as-you-please contests, which will take place in Cleveland, O. July 6th to 10th. The prize-list is attractive and should induce a number of good men to enter into competition.

Prof. J. M. Cannon, of the Gymnasium, has arranged a six-day go-as-you-please twelve-hour per day match to commence at Price's Hill July 19th. Only Ohio men will be admitted; the race to be for the championship of the State. The prizes offered are: First, championship badge of Ohio, valued at \$100, and \$200 gold; second, \$200; third, \$125; fourth, \$75; fifth, \$50, and sixth, return of the entrance fee, which is \$25, and which must be made by the 17th of July to Prof. Cannon at the Gymnasium.

## SKIN DISEASES

## As They Exist in This Country,

## And the Best Mode of Treatment

## To Secure a Speedy and Permanent Cure.

## By a Prominent New Physician.

There is no country in the world where Skin Diseases are so common as in the United States, and where the respectable and cleanly people are subject to the various Skin Diseases. There are many known causes for this state of things; and one is that, in this country, there is less sulphur found in nature, less in the vegetables and in the water, than in many other countries; and, secondly, there are more people in this country that suffer with nervous diseases than any other, and nervous weakness or irritation is a very fruitful cause of the development of many cases of a certain class of Skin Diseases. There is but one remedy in nature for Skin Diseases, and when that is abundantly found in the water and general articles of food, the disease does not exist to any very great extent, and that remedy is Sulphur, and there is no preparation of Sulphur known to either the public or profession equal to GLENN'S SULPHUR SOAP; it contains all the active properties of the Sulphur without any of the extraneous or objectionable matter so often found in Sulphur, and is combined with refreshing and soothing oils that give immediate relief.
